## SCHOOLS SESSION

### **Dr. LAM Man-kin, Ronald, JP**

Director of Health  
Department of Health  
The HKSAR Government

It is with great pleasure that I extend my heartfelt congratulations to the exceptional teachers and students being honored in the Teachers' and Students' Awards Presentation Ceremony. Your remarkable achievements, academic excellence, and dedication to the community are truly commendable.

First, allow me to express my deepest appreciation to the outstanding teachers for your unwavering commitment in nurturing and guiding the students within the realm of healthcare. Your tireless efforts have played a vital role in shaping the future of our profession. Secondly, to all the student awardees, I applaud your resolute dedication and perseverance. Not only have you showcased exceptional talent, but you have also become beacons of inspiration for your peers.

On top of celebrating your remarkable accomplishments, let us also reflect on the valuable lessons learned from the challenges we faced during various public health crises that had made an enormous impact on the healthcare landscape. Such crises, most notably and recently the COVID-19 pandemic, has taught us the importance of resilience, adaptability, and unity in overcoming adversity. It has underscored the crucial role of healthcare professionals, and emphasized the need for continuous learning and preparedness to tackle future challenges. I am sure with our brilliant and outstanding Teachers and Students, we could pass on the baton of such quality attributes from generation to generation.

This ceremony not only signifies an end but also marks the beginning of a new chapter in your journey in pursuit of healthcare excellence. It is a significant moment to recognize your potential and inspire others to follow in your footsteps. May your passion for medicine and unswerving dedication to the well-being of others continue to propel you to new heights.

Once again, congratulations to all the distinguished awardees. I firmly believe that your invaluable contributions to the field of medicine will pave the way for a healthier and brighter society. Let us carry forward the lessons learned from the public health crises and continue to make a positive impact on the lives of others. May I wish you boundless success and fulfillment in your future endeavours.

## MEDICINE SESSION

---

### **Mr. WONG Hak-keung, Albert**

Chief Executive Officer

Hong Kong Science and Technology Parks Corporation

The privilege for HKSTP to drive biomedical researchers and healthcare professionals has allowed me access in witnessing the emergence of success stories, and the progression of many promising ones on their path to fruition.

Understanding the enthusiasm invested in these projects, I was deeply moved by the faculty motto “transforming our passion into perfection” that echoes with the courage it takes to commit, the persistence to pursue, and the resilience to realise one’s passion – qualities essential in the creation of remarkable achievements and celebration of memorable moments like this.

Congratulations to all the awardees, not only for your accomplishments but also for the dedication and determination you have demonstrated throughout your journey. While the award itself may hold symbolic values, your work stands a testament to your talents and an inspiration to your peers.

## Dean's Message

### **Professor Philip W. Y. CHIU**

Dean, Faculty of Medicine  
Shun Hing Education and Charity Fund Professor  
of Robotic Surgery  
The Chinese University of Hong Kong

It is with immense pride and honour that I join the Teachers' and Students' Awards Presentation Ceremony 2024 as the new Dean of Faculty of Medicine. I am thrilled to celebrate the remarkable achievements of our esteemed teachers and students in the realms of their excellence in teaching, learning, and services today.

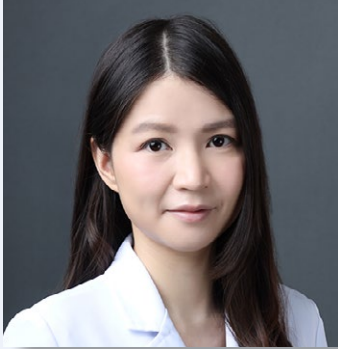

It is our privilege to have the gracious presence of our two Guests of Honour, Dr. LAM Man-kin, Ronald, JP, Director of Health, Department of Health of the HKSAR Government for the Schools session, and Mr. WONG Hak-keung, Albert, Chief Executive Officer of the Hong Kong Science and Technology Parks Corporation for the Medicine session respectively. Their words of wisdom and illustrious sharing will inspire all of us in our quest for selfless commitments in public services and excellence in innovation for betterment of lives.

CU Medicine has achieved an extraordinary accomplishment by ranking the 1st in Hong Kong, 2nd in Asia and 28th globally in the Quacquarelli Symonds (QS) Ranking by Subject 2024, while our Nursing School has secured the top spot both in Hong Kong and Asia, and holds the 8th position globally. This remarkable achievement would not have been possible without the invaluable contributions of our faculty members and teachers. Your relentless efforts, unwavering determination, and deep commitment to cultivating our future generation of healthcare professionals have contributed to our legendary story in only four decades. You have proven that teaching extends beyond a profession - it is indeed a vocation, and for that, I express my eternal gratitude.

To our students, you are the heart and soul of CU Medicine. Your passion, resilience, and steadfast perseverance in studies and community services are truly commendable. As you embark on the journey ahead, always remember to stay humble, passionate and empathetic. The knowledge and skills you acquire at CUHK are not just for personal growth but tools to make a real difference in the world. Your journey is just the beginning, use these tools judiciously, and you will surely achieve greatness.

Finally, to our generous donors, your support has been instrumental in making our story continued and creating a quantum leap for our education and research beyond the healthcare frontier. I am confident that, with your munificent support, CU Medicine will strive to spearhead the developments and bring benefits to our patients and the community at large.

# Sharing by Outstanding Teachers

## **Dr. SO Tiffany Yuen Tung**

Assistant Professor  
Department of Imaging and Interventional Radiology  
Faculty of Medicine  
The Chinese University of Hong Kong

I am truly honoured to receive the Faculty Education Award for 2024. I recognise that this award is not only a reflection of my personal efforts, but a result of all the support I have received from others within our educational community.

I would like to express my gratitude to my colleagues and mentors, particularly Professor Ann King, Professor Simon Yu, Professor James Griffith, Professor Winnie Chu, and Dr Jill Abrigo, who have provided me with invaluable guidance and opportunities to continually shape and enhance my teaching. I would like to thank my collaborators, including fellow teachers and students, who have worked together with me in our educational endeavours. Our collective efforts have pooled together expertise and ideas from different disciplines to develop more comprehensive and supportive teaching materials for students.

In my teaching approaches, I have sought to prioritise active and engaging learning experiences with the integration of technology, multimedia, and artificial intelligence. I am truly grateful for this recognition, and am excited to continue my journey as a teacher. With each teaching experience and interaction with students, I look forward to continuing to further my contributions in teaching.

# Sharing by Outstanding Teachers

## **Dr. WONG Wai Tat**

Clinical Professional Consultant  
Department of Anaesthesia and Intensive Care  
Faculty of Medicine  
The Chinese University of Hong Kong

This is my tenth year working in the Faculty of Medicine at the Chinese University of Hong Kong. I am honoured and grateful to have received the Faculty Education Award 2024. I believe the process of providing medical care is a craft, and every craftsman serving society in different aspects, including clinicians, should be comprehensively competent in doing good for society. My teaching philosophy is deeply rooted in the traditional concept of apprenticeship, contemporarily nurturing competency-based craftsmanship with an emphasis on experiential learning. This approach prioritizes practical and hands-on experiences, which form the core of my teaching in acute medicine, clinical ethics, communication and medical professionalism.

Thank you to colleagues who have helped me in different aspects of my teaching work and students who have given me opportunities to share my experience. More notably, I would like to thank my teachers, Professor Charles Gomersall and Professor Gavin Joynt, who initiated teaching in essential areas that nurture good doctors for the CUHK MBChB curriculum.

I hope the advent of educational technologies, ranging from user-friendly e-learning platforms and high-quality video recording equipment to the more advanced realms of virtual reality (VR) and artificial intelligence (AI), provides exciting opportunities to enrich my experiential learning framework further.

## Radiology Team

We are honoured to be the recipients of the Collaborative Team Faculty Education Award for the year 2024. Radiology plays a pivotal role in modern medicine, and its multidisciplinary nature brings together under one roof the diverse range of specialties in the medical curriculum. The effectiveness of using images in medical education is encapsulated in the adage, “A picture is worth a thousand words,” and the Chinese proverb, “Hearing something a hundred times isn’t better than seeing it once for yourself” (百聞不如一見). Inspired by the multidisciplinary nature of Radiology and the power of images, our team have dedicated ourselves to developing radiology as a cornerstone of medical student teaching, integrated throughout both the pre-clinical and clinical curriculum.

We consider ourselves fortunate to work within a cohesive team that fosters a supportive and encouraging environment. However, we must acknowledge that our achievements would not have been possible without the valuable contributions of our wider team of Radiologists. We also extend our deep appreciation to those who have joined us from overseas to enrich our radiology education program, as well as our radiographers, nurses, IT technicians, illustrators, and managerial staff.

Lastly, we would like to express our sincere gratitude to all our colleagues in the Faculty of Medicine who have provided us with unwavering support and encouragement over the years. The strong presence of radiology in the medical curriculum at CUHK today is a testament to the forward-thinking decision made several decades ago to incorporate radiology into the MBChB teaching program and then to help it flourish and evolve over time.

## Medicine

### **CHIU Tsun Fung**

**MBChB (GPS), Year 4 Student**

I have always felt immensely blessed to be a part of CU Medicine. Words cannot describe how grateful I am to have met many passionate professors who spent so much time nurturing us and answering our numerous questions after class despite their busy schedules.

Learning medicine is both rewarding and challenging. That is why I am forever grateful to my parents, who are my greatest source of support, and to my friends who have accompanied and supported me throughout the past four years. Thank you for helping me get this far.

Finally, I would like to express my gratitude to all the patients I met during my clerkship. Thank you for spending time sharing your stories with us and allowing us to learn from you. I will cherish every encounter, utilizing these experiences to constantly fuel my passion and strive to become a better doctor in the future.

## Medicine

### **LO Wing Sum Amy**

**MBChB (GPS), Year 5 Student**

My heartfelt gratitude goes to God for bringing me to CU Medicine and blessing me with wonderful teachers.

I would not be where I am today without my loving teachers' kind guidance and unwavering support. They have instilled in me knowledge, skills and values, and inspired me as role-models to always put patients first.

My family and friends have also been my important teachers, constantly encouraging me to hold tight to my passion and vision.

I am greatly indebted to all patients – the ultimate teachers, for allowing me to learn from them, generously sharing their experiences, and motivating me every day. I strive to become a competent and patient-centred doctor, to serve them with love and humility in the future.

## Biomedical Sciences

### Netaniah Kisha PINTO

#### Biomedical Sciences, Year 2 Student

Our education, like a magnificent castle, is not solely the result of our individual efforts but a collective endeavour of all who invest in it. Our teachers stand as pillars, supporting and shaping us into better individuals. They pour their heart and soul into nurturing us and moulding us into beacons of light for the future. It's not just our teachers but also our parents, friends, and colleagues who propel us forward, enabling us to pursue our dreams. They all play a vital role in my education. Hence, I want to extend my utmost gratitude to all those who have been a guiding light in my life. Thank you for selflessly dedicating your time, effort, and unwavering support. It has shaped me into the person I am, and for that, I am grateful.

CU Biomed is a loving family that radiates warmth and love. I feel blessed to call this place home and am excited to work towards becoming a scientist. To all the award recipients, congratulations! This is merely the beginning of an exciting journey that lies ahead.

## Chinese Medicine

### LEE Ka Lai

#### Chinese Medicine, Year 4 Student

“Kites rise highest against the wind.” Under the dominance of Western Medicine, it has never been easy to study and practise Chinese Medicine in Hong Kong. Nevertheless, open-mindedness, flexibility and perseverance are what we have acquired and consolidated as Chinese Medicine students studying at the CUHK.

First, I would like to express my heartiest gratitude to the scholarship donors and the School of Chinese Medicine for the recognition. I am thankful to God who has sent “angels” helping and supporting me all the time. Thank you, our teachers. Not only have you taught us professional knowledge and skills, but you have also inspired us how to be a patient-centred doctor. “Da Yi Jing Cheng (大醫精誠)” is never a slogan, but, instead, it is real practice. Thank you, my family and friends who always stand by me to share my joy and encourage me to embrace challenges. Above all, I will strive to do my best to be a responsible Chinese medicine practitioner in the future.

# Sharing by Student Awardees

## Nursing

### **CHAN Kwan Lam Kelvin**

#### **Nursing, Year 2 Student**

Seizing this worthwhile opportunity, I hereby would like to convey my heartfelt gratitude to the school, generous donors, friends, and family.

I am deeply honoured to be nominated by the school and granted acknowledgment by the generous donors. Yet, this honour does not solely belong to me. Instead, it should be shared with all the supportive people around me, making my studying journey a less arduous one. I must thank the patience and unwavering support of our teachers, their passion for teaching always gleam my learning path. I would also like to thank my friends and family who have always been there to back me up whenever I felt exhausted or lost. This honour is for all of you.

In front of me is a lifelong journey full of strenuous obstacles, but by no means insurmountable with perseverance and diligence. With all the love and support from these lovely people, I am confident of overcoming every uphill battle in my future years of nursing study and contributing to the betterment of the medical service.

## Pharmacy

### **LAM Whai Hey Chloe**

#### **Pharmacy, Year 2 Student**

I am grateful for the awards honored to me this year, which is my pleasure to share with my teachers, family, and friends, who have all played an integral role in supporting me on this journey. My past two years in Pharmacy have been enriching and enjoyable, with passionate teachers guiding me like experienced tour leaders, introducing me to various topics and providing detailed explanations. My family has been loving and supporting me unconditionally, while my friends have been standing by my side in every milestone of my life. With all the unwavering guidance and support, I will continue to dedicate myself wholeheartedly, strive for excellence, and equip myself to be a pharmacist with passion and care.

## Public Health

### **LAM Yat Yu**

#### **Public Health, Year 2 Student**

I am incredibly honoured to be one of the award recipients this academic year, and I would like to thank the scholarship selection committee and donors for recognising my efforts. It is a pleasure to be here and to have experienced success over the past few years. I am incredibly appreciative of everyone who has encouraged and helped me become a better person. Without my family, I would not have been able to complete my academic journey. I also want to express my deep gratitude to my teachers for continuously teaching me new concepts and valuable skills, which will make me more competent in the future. I am eager and looking forward to embarking on this new journey in life.
