SCHOOLS SESSION

Professor Philip Kam-tao Li

President

Hong Kong Academy of Medicine

On behalf of the Hong Kong Academy of Medicine (the “Academy”), I would like to extend my heartfelt congratulations to the outstanding teachers and brilliant students of the CU Medicine on being recognised in the Teachers’ and Students’ Awards for your exceptional performance.

Outstanding teachers with profound knowledge are essential for quality medical education that leads young students through the demanding yet amazing journey to becoming healthcare professionals. With solid foundation laid in the undergraduate programme, young healthcare practitioners would be competent to give back to the community with professional knowledge and skills, and to advance their development through continued education. I am sure professional and enthusiastic teachers would have unexpected positive influence on students’ lifelong career in healthcare sector.

The Academy is pleased to see the rise of another batch of outstanding students from different schools of the Faculty of Medicine. Other than celebrating the memorable occasion with family and friends, the students are reminded to continue to unleash their potential, work humbly with seniors and peers, as well as contribute to the healthcare community. Health care is about teamwork, and it is important for us to work concertedly for the betterment of health care system in Hong Kong.

Over the past few decades, the Academy has been committed to upholding high professional standards of medical and dental specialists through postgraduate medical training and education. We are pleased that CU Medicine has shared the same values with us and nurtured generations of young healthcare leaders. We look forward to the continued collaboration in sustaining the high-quality medical education in Hong Kong.

Once again, I would like to congratulate all the awardees of being acknowledged of their hard work and excellence in the medical disciplines. Wish you all success in your future endeavour.

MEDICINE SESSION

Dr. LEE Ha-yun, Libby, JP

Under Secretary for Health
Health Bureau
The HKSAR Government

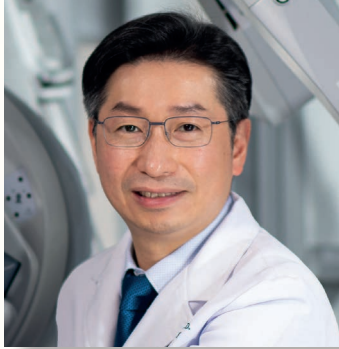

I would like to congratulate the Faculty of Medicine of the Chinese University of Hong Kong (CUHK), and its esteemed educators and its accomplished students.

To the dedicated faculty members, I would like to express my profound gratitude for your unwavering commitment to nurturing and inspiring the next generation of medical professionals. Through your tireless efforts in impacting knowledge and fostering a passion for excellence, by sharing knowledge and passion, you are shaping the future of healthcare. Every lesson you teach and every insight you share ignites innovation and reinforces the importance of compassionate, patient-centered care. To the exceptional student awardees, your achievements stand as a testament to your dedication, perseverance, and unwavering commitment to making a meaningful difference in the field of medicine. As you embark on your professional journeys, I urge you to champion the highest standards of medical practice, uphold ethical integrity, and relentlessly advance excellence in the benefit of patients and communities.

The Faculty's steadfast commitment to advancing healthcare education aligns closely with our mutual objective of strengthening the training and development of healthcare professionals. Over the years, the Government has remained consistently dedicated to supporting healthcare education through strategic investments in expanded training opportunities and resources, addressing the growing demand for healthcare services. We are poised to drive sustainable advancements that will directly benefit the health, resilience and well-being of our community. Together, we can cultivate a robust healthcare workforce equipped to meet current and future challenges.

Once again, congratulations to all the awardees.

Dean's Message

Professor Philip W. Y. CHIU

Dean, Faculty of Medicine
Shun Hing Education and Charity Fund Professor
of Robotic Surgery
The Chinese University of Hong Kong

With immense pride and honour, I welcome you to the Teachers' and Students' Awards Presentation Ceremony 2025 – a celebration of the unwavering dedication and outstanding achievements of our esteemed teachers and students. Today, we gather not only to recognise academic excellence but also to honour exemplary mentorship, service, and the profound connections that drive our shared mission in advancing healthcare.

We are deeply privileged to welcome our distinguished Guests of Honour: Professor Philip LI Kam-tao, President of the Hong Kong Academy of Medicine, for the Schools session, and Dr. LEE Ha-yun, Libby, JP, Under Secretary for Health of the Health Bureau, for the Medicine session. Their presence and wisdom will undoubtedly inspire us to embrace selfless service and pioneering innovation, reinforcing our commitment to advancing medical excellence and public health.

This year, CU Medicine continues to excel globally, ranking among the top 25 in Medicine and the top 5 in Nursing in the QS World University Rankings 2025 – a testament to our leadership in healthcare education. The Nethersole School of Nursing further solidifies its legacy, maintaining its No. 1 ranking in Hong Kong for a decade and No. 1 in Asia for six consecutive years. These achievements reflect the relentless dedication of our Faculty, who shape future healthcare leaders with expertise and compassion.

To our teachers: You are the foundation of our success. Your commitment goes beyond profession – it is a calling that inspires minds and nurtures hearts. For this, we extend our deepest gratitude.

To our students and awardees: Congratulations! Your passion, resilience, and dedication to service embody the spirit of CU Medicine. As you move forward, carry the knowledge and skills you've gained here as tools to build a better world. Remain humble, empathetic, and courageous in transforming challenges into opportunities.

To our donors: Your generosity powers breakthroughs in education, research, and community impact. With your support, we have pioneered innovations like AI-driven diagnostics and community health initiatives, improving countless lives. Together, we will achieve even greater milestones.

As we celebrate today, let us reaffirm our pledge to excellence, compassion, and innovation. Each of you plays a vital role in this journey. May we continue forging a legacy that uplifts future generations – one defined by humanity, discovery, and service.

Here's to a healthier and brighter future for all.

Sharing by Outstanding Teachers

Dr. CHANG Wai Tsz

Assistant Professor (Clinical)
Department of Otorhinolaryngology
Head and Neck Surgery
Faculty of Medicine
The Chinese University of Hong Kong

I am honoured and grateful to receive the Faculty Education Award 2025. As a graduate and an early career academic at The Chinese University of Hong Kong, my teaching philosophy centers on personalised and integrative learning. I strive to inspire my students through innovative approaches that emphasise engagement and efficiency. My commitment to nurturing future healthcare professionals reflects the motto of our Faculty: "Transforming Our Passion into Perfection." By role modelling and integrating humanistic values into the medical sciences, I aim to equip my students with the skills necessary to navigate the complexities of patient care and contribute meaningfully to the field. Together, we embark on a journey of lifelong learning, ensuring that our passion for medicine is mirrored in our students' growth.

I would like to express my gratitude to my teachers, colleagues, and mentors, particularly Professor Charles Andrew Van Hasselt and Professor Michael Tong, who have inspired me throughout my career as an otorhinolaryngologist and medical educator. I would also like to thank my fellow colleagues, teachers, and students with whom I have worked to develop a supportive, enjoyable, and comprehensive teaching environment for our students.

I hope that with the advent of educational techniques and technologies, students can experience and enjoy their learning journey even more. Through enjoyable and engaging learning, students can achieve good grades, maintain a positive attitude, and discover their passion for their future careers. I believe that while good grades provide a desirable job, strong skills and a positive attitude create good doctors; only with passion can we find a fulfilling career.

Dr. FUTABA Kaori

Associate Professor
Department of Surgery
The Chinese University of Hong Kong

I am truly honoured to receive the Faculty Education Award 2025. My teaching philosophy is learner-led active learning. I have been interested in medical education since I was a trainee, trying my best to make learning fun and engaging. Over the years, I have seen the power of learner engagement in active learning and the potential of peer-led learning. With the recent advances in technology to support medical education, the knowledge and skills gained from obtaining a Master's degree in Clinical Education at the University of Nottingham, England, and over 20 years of experience in teaching Medical students, I look forward to working with students and fellow teachers to continue keeping the curriculum up-to-date to help medical students at CUHK to become confident, competent doctors. I am very grateful for all the guidance and support I received from my seniors and colleagues in the department, as well as our educational community at CUHK, in producing a variety of learning materials for our students.

Eye Learn I.CARE Joint-University Eye Care Ambassador Training Scheme

Since May 2022, Eye Learn I.CARE Joint-University Eye Care Ambassador Training Scheme has successfully empowered over 300 Eye Care Ambassadors (undergraduate students from 4 UGC-funded universities), 800 secondary school volunteers for free-of-charge eye examinations and community outreach activities for 3,000 individuals through a unique, cross-institutional platform integrating research, education, service, and technology—our REST framework.

The Eye Learn I.CARE programme sets itself apart with a learner-centred approach, encouraging interdisciplinary collaboration among students from Faculty of Medicine, School of Nursing, and Public Health.

We extend our deepest appreciation to the Faculty of Medicine, all team members, volunteering eye doctors, postgraduate, medical, nursing, undergraduate, and secondary school students, and collaborators, including different (NGO) non-governmental organizations, whose support enables us to cultivate the next generation of eye-care professionals and visual science researchers. We are shaping a future where eye health is understood and appreciated across disciplines.

We wish to pay particular tribute to Mr. Ken Poon, coordinator for the ambassador program who unfortunately because of sudden illness has left us earlier this year.

Thank you so much again for this wonderful recognition. We will continue to turn “passion into perfection” by achieving excellence in ophthalmic education, research, and patient care.

SBS UG Team - Innovate

Innovation Rooted in Experience: Evolving Education Turning Trials into Triumphs

We are grateful for the chance to work as a team with a strong focus on the development and application of education technologies in our daily teaching.

Education is an ever-evolving and dynamic process - it is the cradle of experiences and wisdom that nurtures innovation and creativity, where dialogue and bi-directional knowledge transfer between learners and educators are accommodated. We believe **technology-assisted teaching and learning (technology “for” education)** is a necessary element in modern education which serves beyond student engagement. It transforms education into an evidence-based, supportive teaching and learning environment that motivates and engages learners and, equally importantly, inspires educators by making data available. We also advocate **technology “as” education** and engage students as partners to develop educational tools. We integrate our curriculum with elements that explore the application and impact of modern technology on health and science professions, to stimulate intellectual discussion, and emphasize the importance of human interaction through experiential learning. **“Innovation Rooted in Experience”** reflects our path of education and pedagogical innovation. We are glad to see that many of these trials were turned into triumphs.

We feel truly honoured to be the recipients of the Faculty Collaborative Team Education Award 2025 and would like to send our gratitude to the School and the Faculty for their staunch support and trust in our beliefs.

Medicine

LI Kwok Tung Moses

MBChB (GPS), Year 5 Student

I am deeply grateful for the invaluable learning experience at CU Medicine. Although the journey in medicine is challenging, I feel honoured and privileged to be part of our patient's path to healing.

My heartfelt gratitude goes to my Heavenly Father for blessing me with supportive classmates, friends, and family who have stood by me during difficult times. Their words and actions of encouragement has helped me stay true to my beliefs.

To my teachers and mentors, thank you for generously sharing your knowledge and experiences. You have not only equipped me with the essential skills to become a competent doctor, but also instilled in me the values of compassion and integrity.

Finally, thank you to all the patients who have selflessly shared their stories with us, even in their moments of weakness. Every encounter has strengthened my commitment to becoming a better doctor.

Medicine

NG Shing Him

MBChB (GPS), Year 6 Student

Attending the ceremony is a tremendous honour, and I am filled with gratitude. As a medical student, I recognise that this achievement reflects the unwavering support I have received throughout my journey. I am deeply thankful to my mentor, Dr. Oscar Wong, whose guidance has been instrumental in shaping my path and inspiring my growth. I am equally grateful for my family's steadfast support; their encouragement has empowered me through every challenge. Moreover, I am thankful for my friends. Together, we have shed blood, sweat, and tears, striving day and night to become exceptional clinicians dedicated to serving Hong Kong and the world. This honour celebrates my efforts and motivates me to continue advancing in my studies, research, and community outreach initiatives. This honour truly belongs to everyone who has been part of my journey. Thank you to all who have shaped me into who I am today. Together, we will go further!

Biomedical Sciences

NG Long Hin, Hinson

Biomedical Sciences, Year 2 Student

I am deeply honoured to be nominated by the School and to receive scholarships from our generous benefactors. I want to express my sincere gratitude to all the teachers and staff, especially our Programme Director, Dr. Ann Lau, for providing directions for our future journey. I am also thankful to my parents and classmates for their unwavering support throughout this experience.

Our programme offers students a unique opportunity to gain an in-depth understanding of fascinating human biology and the mechanisms underlying current therapeutic approaches. This education helps us recognise the limitations of existing studies and trains our scientific mindset to explore detailed pathophysiology and develop new medications.

Lastly, I am particularly grateful for the numerous laboratory attachment opportunities that our programme provides. My special thanks go to Professor Carol Tong, my Research Mentor, for her invaluable guidance along the way.

Chinese Medicine

LEI Chongguang

Chinese Medicine, Year 6 Student

I am truly humbled and grateful to the scholarship donors and the School of Chinese Medicine for this noble honour. Firstly, I would like to express my deepest gratitude to my professors, who have always provided invaluable inspiration throughout my learning journey. They patiently stayed with me and clarified my doubts whenever I felt confused. Secondly, I would like to express my appreciation to my peers. Friendly peer competition has always motivated me to do better.

My learning journey was not easy. There were tough moments when the sheer volume of assignments felt overwhelming and stressful. However, these challenges taught me persistence. The more challenges I faced, the more knowledge I gained. I knew I could overcome them with the support of my professors and peers.

Finally, I hope my experience can encourage others to conquer difficulties in their studies. Remember, learning is always a journey of self-improvement. I am looking forward to the challenges in my future journey.

Thank you for this wonderful opportunity!

Nursing

WOO Wing Hin Peony

Nursing, Year 5 Student

I am truly honoured to have this opportunity to extend my heartfelt gratitude to the Faculty, staff, fellow students, friends, and family who have guided and inspired me throughout my journey. This recognition reflects not only my hard work but also the unwavering support of a community dedicated to excellence in healthcare.

Nursing is a calling that demands compassion, resilience, and commitment. I am fortunate to have learned from exemplary role models at CUHK, whose dedication has deepened my passion for holistic patient care. Each of you has played a vital role in shaping my education and nurturing my commitment to enhancing healthcare through nursing.

I am excited about the future and eager to apply what I've learned to make a meaningful difference in the lives of others. Thank you once again for this honour. I look forward to being inspired and inspiring others as I continue this journey toward a brighter future in healthcare.

Pharmacy

YICK Chau Ho

Pharmacy, Year 4 Student

I believe the future belongs to those who believe in the beauty of their dreams. I am deeply honoured to be one of the awardees this year. I would like to seize this opportunity to express my sincere gratitude to the school, generous donors, my family, and friends, who have guided and supported me throughout my Pharmacy journey. Their encouragement has made this challenging yet rewarding path much more fulfilling. They have been my pillars of strength, standing by me through every challenge, especially my late father, whose love and teachings continue to inspire me every day. His unwavering belief remains the greatest motivation in me. These achievements are not mine alone—they belong to all of you.

These valuable supports and awards not only serve as a recognition for my academic achievement, but also glimmers of hope, giving me the courage to navigate through challenges and reminding me that Pharmacy is a lifelong commitment to serve others with professionalism and compassion. With this motivation, I will continue to pursue excellence and strive to do my best to contribute to healthcare.

Public Health

CHUI Ka Hei Hilary

Public Health, Year 4 Student

I would like to express my sincere gratitude to the JC School of Public Health and Primary Care, the scholarship donors, and my family and friends for their unwavering support and generosity. They not only lifted my spirit but also gave me the confidence to pursue my dreams.

Public health is inherently uncertain and unpredictable. Yet the School's guidance and endless opportunities have transformed this journey into a profoundly enriching experience. In this nurturing environment, I have enjoyed intellectual and personal growth, feeling empowered to reach my fullest potential without fear. As I embark on a new chapter, I am dedicated to carrying forward the values of our School and making meaningful impacts in the field of public health.
